Invitation to the conference “Indoor Air Quality and Health Risks from Indoor Air Pollution”

Dear Sir/Madam,

It is a pleasure to invite you to participate to the final conference “**Indoor Air Quality and Health Risks from Indoor Air Pollution**” that will take place on **27th of May 2021 at 12:00, online via ZOOM platform.**

Main aim of the conference is to raise awareness about indoor air pollution and the need of developing policies for improving the indoor air quality. The conference encompasses current activities on indoor air pollution, presentation of the results from the monitoring campaign at 10 primary schools from Municipality of Karposh, the possible effects from indoor air pollution and how to improve the indoor air quality. Also, as part of the conference will be presented WHO perspectives in addressing indoor air pollution and health risk assessment.

If you are interested to participate to the conference, please register your presence not later than 26.05.2021, 16h or through the following [link](#).

Please find enclosed the agenda for the conference.

The conference is organized as part of the project “Increasing awareness about indoor air pollution at primary schools” financed by Australian Embassy in Serbia.

If you need more information regarding the conference, please feel free to contact Mr. Filip Stojanovski, at 070/579-182 or e-mail fstojanovski@yahoo.com and centerzaklimatskipromeni@yahoo.com
